„Making the right and informed decisions - combined with production technologies and continuous innovation have led to Prosperplast's rapid growth.

We think forward and ahead of time, so we can develop the best products on the market.

With the growth of technology and continual evolution of consumer demands, our online presence had a makeover, so we can serve our B2B clients and help our B2C customers in a better online environment. Developing our new website we had three core objectives: to interest, inspire and educate. We can proudly say we have achieved all three goals and will continue growing our online platform to support our current and new customers on daily basis.

Our product offering is growing, so is our virtual world! Sign up to the Newsletter on our website to stay up to date with news from our Prosperplast world!"

Sortibox from the ECO Wood Collection is available in sets of three or four 25 litre bins with a flap on the top of the lid. Products from the ECO Wood Collection contain up to 33% of natural wood, which results in easier biodegradability. This model has a special embossing in the lids and recesses in their bodies, thanks to which they can be easily arranged in rows or stable posts. Coloured stickers can be stuck on the lids indicating the types of sorted waste.

The portable seedbed collection from the Respana collection is an important part of the gardening backyard and a perfect solution for growers who face difficult climatic conditions. This miniature greenhouse which, does not take up much space at home, creates the perfect conditions for the growth of the seedlings through good ventilation and humidity control. Cultivation of early vegetables, herbs or warm weather-loving plants sensitive to weather conditions - can be continued regardless of weather condition outside and bringing a great joy of early harvest. The light transparent lid provides adjustable ventilation holes in order to create an ideal micro-climate and prevent from overheating plants. What is more it protects the seedlings from insects.

Wheeler is a mobile bin equipped with wheels and a handle for transportation, thanks to which it can be always where it is needed. Its tight lid isolates unpleasant smells, and a latch in the lid prevents it from being opened by the wind. The smoothly finished interior makes it easy to clean. The model is available in three sizes, so it meets the individual needs of the user.

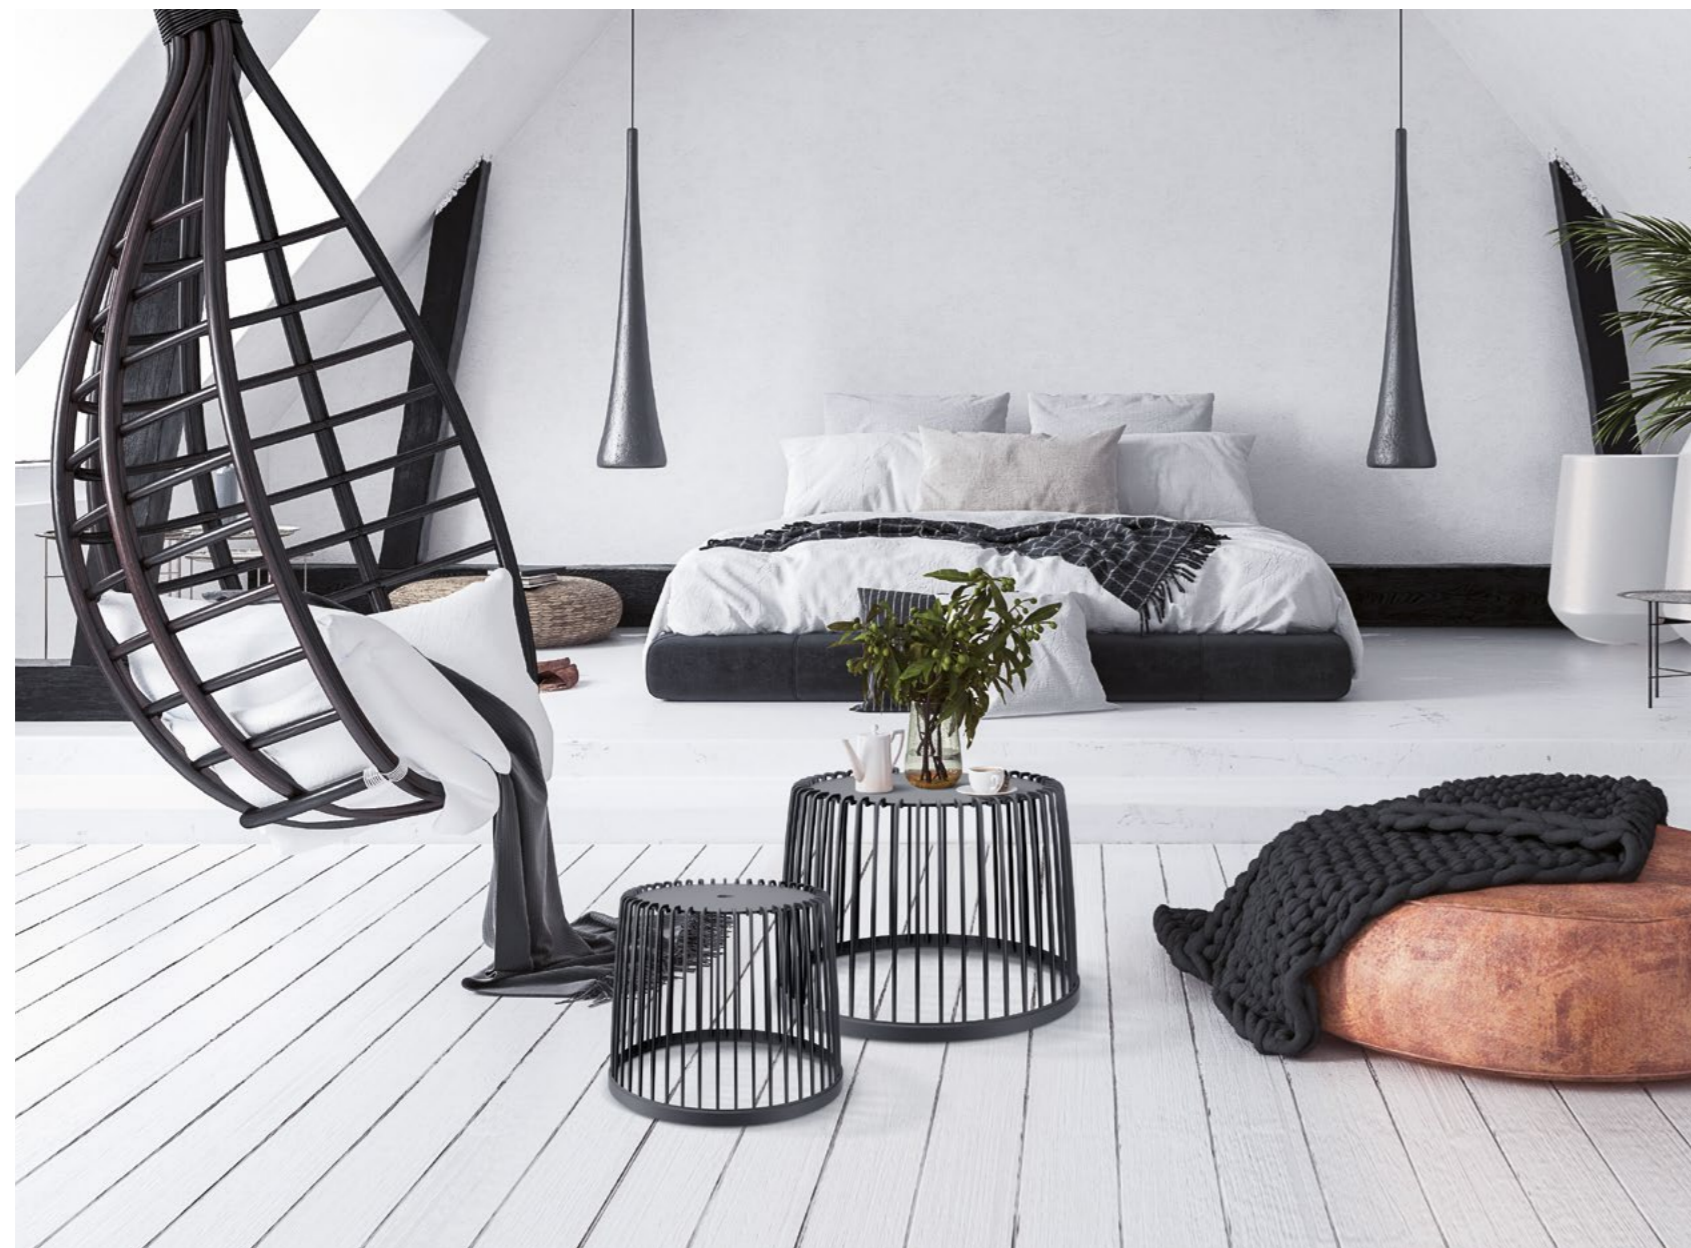

Solid & durable wheels

The Smooth bin is perfect for garden, allotment garden or office. It is made of high-quality material with high resistance to external factors. The sturdy side handles make it very easy to carry. The aesthetic lid allows you to hide the contents - it can be waste, compost, branches or rainwater. The model is available in three sizes, depending on the user's needs.
